

## ABOUT US

### Vision

To be major player in the training industry serving our target market thereby helping them to attain our first and foremost aim of developing their knowledge and technological skills, creating an opportunity to succeed in the future.

### Mission

- To conduct business in the highest ethical value possible;
- To offer excellent training, seminars, tutorials together with advanced facilities at the most flexible terms possible;
- To provide excellent customer service without compromising profitability of the organization;
- To promote and sell products/services that are value for money; and
- To be aware of our social responsibility, as to the implications, consequences, and benefits to the community of the products and services we offered.

### NeoVita Identity

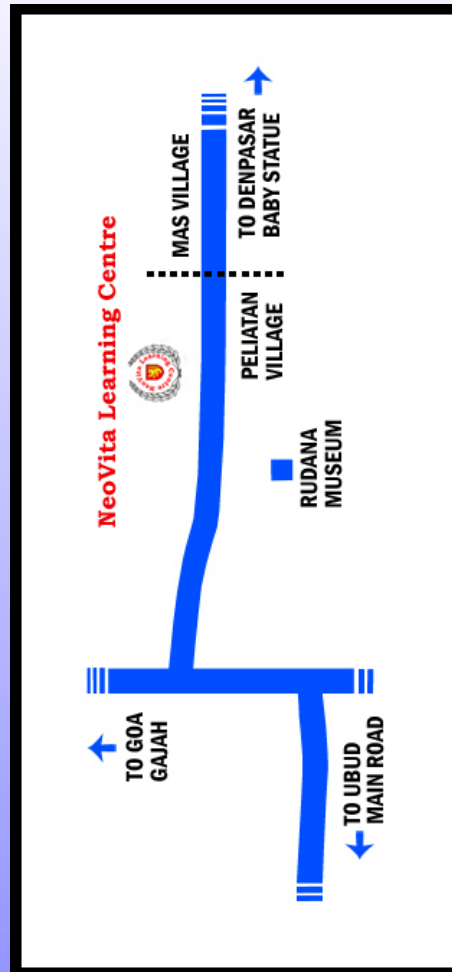

"NeoVita" is a combination of Greek word "neo" which means new and from Latin word "vita" which means life or way of life. Therefore, NeoVita means new life or new way of life.

New way of doing things through knowledge and technology is the main objective of the group. The name reflects the first and foremost reason why this business initiative came in fruition - to help participants upgrade and somehow develop them for a higher task or job/business requirements. Equipped with additional knowledge and proper attitude, then success would not be a remote possibility.

Don't be left behind, acquire that skills and knowledge. Its not too late, we will be there to guide you !!!

## CAREGIVER TRAINING PROGRAMME

Proper caring for elderly, infants, and children have gone through a lot of development both in practices and technological innovations. Our knowledge and skills from what we have been conventionally taught of, needs additional training and continuous upgrading to cope with these latest medical/caring practices as well as technological advances. This Caregiver Training aims to address this upgrading needs.

This is a mixed theoretical / conceptual and hands-on exposure training that will prepare the participants to responsibilities of proper caring of infants, toddlers, children, healthcare concepts, first aid, home management, professionalism at work, and care for the elders.

Conducted by professionals in the medical/home care industry, we aimed at equipping participants with basic hygiene and grooming requirements, nutritional as well as medical know-how, safety and accident prevention knowledge, and nursing & caring skills, so that they can better handle/take care of your infants, children or elderly household members.

This CAREGIVER TRAINING PROGRAMME is an six (6) months training programme that will include several Skills Components (SC). Certificate of Completion and Skills Component Record are to be awarded after finishing the required SCs including a First Aid card certification from American Heart Association.

**CAREGIVER Training**  
*Equip today, prepare for the future !!!*
