## Hardware and software upgrading continues

As new developments in the computer industry are coming fast and furious, NeoVita wants its students to keep up with it.

We have recently doubled our available internet connections so as to open the cable internet technology to our students for them to differentiate from

our existing broadband training. technology using telephone connection.

Due to additional demands, we continue to add "shoe box" CPU units to augment our existing desktops. These new units possess faster processors and are capable of higher bandwidth internet connections which in effect makes internet surfing and other online activities worthwhile experiences for our students.

Latest versions of application programs were rolled out to give our students the chance of using new application programs in their

The new units and software will surely enhance the training experience that NeoVita offers to its students. They will be updated on the latest developments in the computer industry making them confident in applying this technology which might be a demand of their everyday work.

With well-trained, adequately exposed and confident workers, opportunities will not be too far and they can easily grab it when time comes.

**DON'T BE LEFT BEHIND,  
UPGRADE YOURSELVES  
NOW AND BE READY FOR  
THE NEXT OPPORTUNITY.**

## NeoVita Internet Centre catering to gamers

To cater to the growing demand for online gaming, a new company, the NEOVITA INTERNET CENTRE (NIC) was set-up to specifically address this market.

Under the NeoVita Group, the NeoVita Internet Centre will focus on internet requirements of NeoVita students and will address the demands of the fast-growing gaming market.

In line with this, NIC has

tied-up with several gaming related companies to make their products available for NIC gamers.

To cater to the gaming market, NeoVita has recently upgraded all units to conform with the standard requirements in online gaming.

The centre now caters to gamers during weekdays.

However, as we prioritize IT training, no gaming activity is allowed during Sunday. This day is specifically dedicated to our IT training students.

We continuously accept weekday night session tutorials. Also, we are still open for our regular weekday internet users.

NeoVita continues to serve all your gaming, internet and IT training needs.
